VERTI 840KA - 86.0x68.0x26.2 cm, White
- For cabinet width 90 cm
Manufacturer: Granberg

Article Info

VERTI 840 – Make Wall Cabinets Accessible at the Touch of a Button

With the VERTI 840, you can easily reach everything in your wall cabinets – quickly, quietly, and without even opening the doors. The shelves lower smoothly down to the worktop, leaving free space in front for practical use.

The compact design takes up minimal space and can be installed in both new and existing wall cabinets, without protruding from the wall.

Light-permeable, fully enclosed sides and a reliable safety system ensure safe operation – with no risk of pinching.

The VERTI 840 can be integrated into kitchens from any manufacturer, bringing both accessibility and style to your kitchen.
