

APPLICATION EXAMPLE

Niche cabinet

- Use of the smallest niches for more storage space
- Space-saving design due to diagonally offset slides
- Easy installation with Vionaro V8 standard products
- Slim 8 mm drawer design
- Straight inside surfaces and narrow installation width ensure optimal utilisation of space
- Depending on the accessories, up to five-dimensional adjustment is possible: Integrated tilt adjustment, side

adjustment and height adjustment using the front locking device, depth and radial adjustment are optional

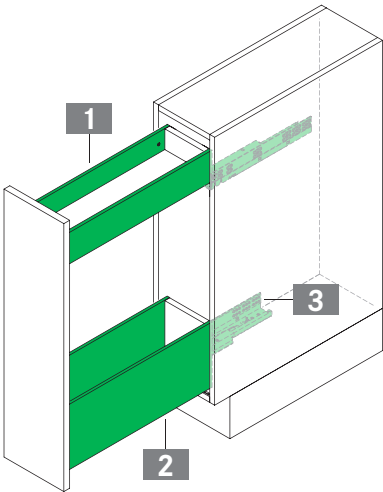

- Load capacity 20 kg

Notice:

- Cabinet and accessories for illustration purposes only
- Case-specific testing required for each application (trial fitting)
