

APPLICATION EXAMPLE

Sink drawer with cut-out

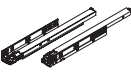

- Maximum storage space utilisation in the sink area through individual combination with shorter drawer sides
- Easy installation with Vionaro V8 standard products
- Variable width, variable cut-out
- Slim 8 mm drawer design
- Straight inner sides and narrow installation width ensure optimal utilisation of space
- Tool-free front installation and removal

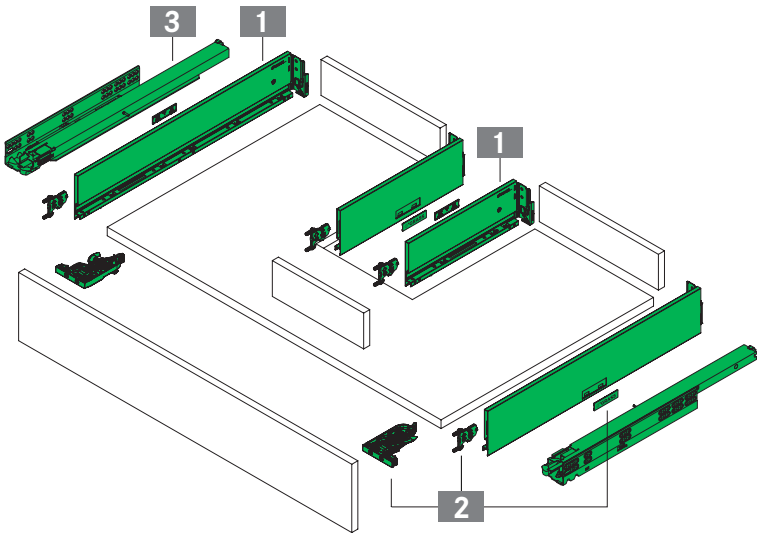

- Depending on the accessories, up to five-dimensional adjustment is possible: Integrated tilt adjustment, side adjustment and height adjustment using the front locking device, depth and radial adjustment are optional

Notice:

- Cabinet and accessories for illustration purposes only
- Case-specific testing required for each application (trial fitting)
